FLYING SITE SAFETY AND OPERATIONAL RULES

The Official AMA National Model Aircraft Safety Code is a basic document for ALL AMA chartered clubs. Every member should be familiar with the Safety Code, and new members should receive instruction about this code.

Each club should also develop a carefully structured set of <u>rules</u> for their club's flying site. These rules should cover two (2) areas:

- 1) **Safety** rules for actual flying, and
- 2) **Operational** rules which include items concerning times of operation, permits required, emergency numbers, etc.

Following is a generic sample of a set of rules designed to supplement the required current *Official AMA National Model Aircraft Safety Code*. This example is not intended to represent the specific needs of all flying sites. It is, rather, intended to be a guide to help each club develop rules which specifically meet the individual site situation.

FLYING SITE SAFETY RULES

- 1. Deliberate flying behind the safety line is prohibited.
- 2. Each transmitter must display frequency identification.
- 3. Taxiing is **not** allowed in the pit area.
- 4. It is strongly recommended that members do not fly alone.
- 5. Children should **not** be permitted beyond the spectator area unless under the **direct** supervision of an adult or under flight instruction.
- 6. The established club frequency control plan will be in force at all times.
- 7. Control line equipment shall be inspected before the initial flight each day.
- 8. Helicopter flights are allowed in designated areas only.
- 9. Sailplane high start lines are to run parallel to active runway.
- 10. Direction of flight is determined by the wind direction, etc.
- 11. Flight operations will stop during electrical storms.
- 12. Models will fly only in predesignated areas, and will yield right-of-way to full-size aircraft.

FLYING SITE OPERATIONAL RULES

- 1. NO flying before 9:00 a.m.
- 2. Only pilots and assistants are allowed on the safety line.
- 3. Mufflers are required on all models. (db limit recommended).
- 4. Testing of engines is to be performed in specific designated areas.
- 5. Shelter may not be used as a pit area.
- 6. The AMA Safety Code will be displayed when the field is open for flying.
- 7. Fliers operating models must display AMA membership cards for easy identification.
- 8. Pilots shall make appropriate announcement when taking off, landing, or emergency situations.
- 9. Compliance to these safety rules is the responsibility of each participant.
- 10. First aid kits are to be carried by designated members.

11.	Post em	ergency	numbe	ers: H	lospita	1_		,	_,					
	Police _					,	and Public	ohoi	ne loc	ation				
10	A 11			4 1	1 1 .		4.11				1 T '	0	1.01.	

12. All non-participants must be behind a partial barrier during Control Line Speed flying.
